APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application,
 and do hereby grant the same, subject to the following limitations and
 conditions: source and is limited to what the well will produce but not
 to exceed 1.0 c.f.s. It is understood that the amount of water herein
 granted is only a temporary allowance and that the final water right
 obtained under this permit will be dependent upon the amount of water
 actually placed to beneficial use. It is also understood that this
 right must allow for a reasonable lowering of the static water level
 at permittees well due to other ground water development in the area.
 A substantial weir or other type of measuring device must be installed
 and measurements of water use kept, and a method provided, either air
 line or opening, for measuring depths to water. The State retains the
 right to regulate the use of the water herein granted at any and all times.
 The amount of water to be appropriated shall be limited to the amount
 which can be applied to beneficial use, and not to exceed 1.0
 cubic feet per second.

Actual construction work shall begin on or before November 22, 1953

Proof of commencement of work shall be filed before December 22, 1953

Work must be prosecuted with reasonable diligence and be completed on or
 before November 22, 1954

Proof of completion of work shall be filed before December 22, 1954

Application of water to beneficial use shall be made on or before

November 22, 1955. Proof of the application of water to beneficial

use must be filed with State Engineer on or before December 22, 1955
